COMMUNICATIONS-ON-THE-MOVE AND CONNECTIVITY IN THE HARSHTEST TERRAIN

The Thuraya IP Commander is a rugged terminal with a MIL-SPEC feature set that has been engineered to enable mission-critical voice and data connectivity in the most extreme conditions. The Thuraya IP Commander is ideal for military, government and civil defense applications. Simple, quick and easy-to-install on any vehicle, data and voice connectivity can be achieved within minutes, providing reliable access across Thuraya's satellite network. The Thuraya IP Commander enables reliable real-time two-way communications.

Furthermore, it enables connectivity and interoperability over a wide range of communication platforms, providing network access, email/file transfer as well as supporting secure communications using government-approved IP encryption devices.
